

HCLE Third Quarter 2014 Progress Report

Welcome to the third HCLE quarterly report (third quarter of 2014). We share many of these news items via our outlets (wiki, blog, Facebook, Twitter, LinkedIn) and collect them here for your and our convenience.

The pace continues. The progress is hard to track unless we take the time to look back. The following is a long list of items that we've worked on in the last three months. Consider them headlines, and if you want more details behind them, send us a note if there isn't a link. (You're also invited to browse our wiki, the virtual museum's electronic loading dock, where many of these topics have working pages.)

Please pass our news along, especially if you know someone else who will want to contribute money, know-how, artifacts, stories, or connections. Even by glancing at what we've done, you're helping make HCLE happen as you pass along the story. Thank you.

Operations

- catalog - Stan & Andrey
 - database team constructing input pages
 - Milestone: Identity and Metadata inputs are functioning for Catalog
 - volunteer login (Input View Insert)
 - Process: Catalog Dev Wiki
- CiviCRM
 - CiviCRM on wordpress in setup process
 - investigating other CiviXYZ modules; e.g. project management
 - SKVare - CiviCRM consultant
